

LIBRA EDUCATION

SCHOOL CONSULTANCY

EDUCATION IN THE UK

The United Kingdom has a rich history of excellent schooling. Day and boarding schools offer students unbeatable opportunities to learn from the best teachers. However what really sets them apart is the care devoted to developing every student's individual talents.

The Peer Effect

It may be odd to hear that students often learn more from their peers than from their teachers. The bright and inquisitive minds that fill British schools challenge and support each other every step of the way. The best lessons are lived, not learnt.

International Students in the UK

The UK is known across the world for high quality education and it is no surprise to hear that international students play a vital role. These students give diversity to schools and create an international atmosphere similar to that at top universities.

Our Mission

At Libra Education we aim to maximise the opportunities for young people studying in the UK by working with schools to ensure that our students achieve their academic potential.

Being based in the UK gives us unique access to the schools we work with. What truly makes us special though is our consultants and tutors. Our dedicated consultants support students to secure a place at their dream school. Our team is made up of Oxbridge graduates and qualified teachers with first-hand experience guiding bright minds through the application process.

Oscar Hardy

All student journeys are overseen by Eton Scholar and Cambridge graduate Oscar Hardy. Since 2011, his expert experience has allowed him to ensure students are successful in their academic goals.

GOOD THINGS COME TO THOSE WHO PLAN

Each school has a different test and entry point. Take advantage of our free planning tool to map your key dates and speak to us to find out how we personalise this to meet your precise needs.

THE PLACEMENT PROCESS

1 Initial Consultation

School consultancy starts with an honest and free assessment of every student. We learn about our students and consider which school they would be best suited to.

2 Route Planning

Students receive a report and an Academic Plan explaining how we will support them to achieve success. This detailed guide shows students how to excel.

3 A Dedicated Consultant

Our consultants are responsible for ensuring that we adapt to the changing needs of the student. They ensure the student makes good progress towards achieving their goals.

4 School Visits and Liaison

We organise visits and consultations with registrars so that students and parents can experience the unique attributes of each school. We provide feedback to keep students on track.

5 Assessment Preparation

School assessments consist of multiple tests and interviews. Our consultants are perfectly placed to coach students on how to achieve success in their school application.

SUCCESS STORIES

**Personalised
application plans
deliver first
class results.**

Anna

We worked with Anna for a year leading up to her 6th Form applications to Charterhouse and Rugby. As a bright student suffering with low confidence, Anna was coached outside of a formal classroom setting to reduce the pressure placed on her shoulders and thereby allowing her to explain her ideas more freely. This interview coaching helped her to shape arguments in a natural and confident way. She secured places at both schools, including one scholarship offer.

John

John came to us after making several unsuccessful applications to senior schools in the UK. We worked with him to understand the difficulties he had with the testing; namely a narrow vocabulary and insufficient knowledge of grammar rules. With our help, he improved his English and secured a place at Wellington College.

William

Whilst academic results are vital in all schools' application. The interviews are an increasingly important area of focus for registrars. We supported William through regular mentoring to develop his critical thinking and to improve his conversational English. He successfully gained a place to study at Westminster School.

SCHOOL PLACEMENTS

We have supported students with school applications all across the UK. This includes day and boarding schools; coeducational and single sex schools; rural and urban locations; and those with a full range of academic requirements.

Successful Placements

Eton College	Uppingham	Summer Fields
Harrow	Gresham's	The Dragon
St Paul's	Downe House	The Elms
Charterhouse	Godolphin & Latymer	Cothill House
Winchester	Queens Gate School	Wetherby Prep
Westminster	Wellington	and many more.
